

Sound Seal Expands Product Teams with Key New Hires

Acoustical and noise control specialist continues positive momentum following recent Industrial Noise Control acquisition

AGAWAM, Mass. – December 17, 2014 – [Sound Seal](#), a leading manufacturer of acoustical and noise control products serving the industrial, architectural, commercial and construction industries, announced today that it has added three key team members to its product teams. Greg Szczesny has been named sales engineer for the Impacta acoustical floor underlayments products; Jeffrey Schaaf joins as estimator for Sound Quality architectural acoustical products; and Mike Keeney has been appointed project manager for WoodTrends acoustical wall and ceiling panel products.

Recognized for his focused, results-driven approach, Szczesny possesses over 20 years of experience in sales, project management and new business development. Previously, he was a program manager at Excel RP where he was responsible for developing and managing customer relationships, assessing new technologies and overseeing tooling programs. Szczesny also held positions as project manager and business development coordinator for The Prestressed Group before enjoying his experience as a technology education instructor. As a sales engineer for Sound Seal's Impacta acoustical floor underlayments, Szczesny will identify and capitalize on market opportunities to maintain and build customer accounts in the U.S.

Schaaf has a proven record of managing estimating processes and ensuring customer satisfaction. He previously served as an estimator for companies such as Babcock Power Services, Nine Points Woodworking and Wright Architectural Millwork. As an estimator for Sound Seal's Sound Quality architectural acoustical products, Schaaf will play a pivotal role in the full proposal/bid process, from creating work scope through final preparation, always delivering the utmost in customer satisfaction.

Keeney brings over 15 years of experience working with architects, general contractors and customers. Prior to joining Sound Seal, he was a project manager for R & R Window Contractors where he managed all aspects of project management, from shop drawings to close-out procedures. He has held similar positions at Schuco-USA and Permasteelisa North America. As a project manager for Sound Seal's WoodTrends products, Keeney will assist customers in the design, choice and installation of decorative real wood wall and ceiling panels.

"Sound Seal is committed to building and enhancing our acoustical and noise control product offerings, and attracting superior industry talent is one of the key ways we accomplish this," said Joe Lupone, CEO of Sound Seal. "We are extremely excited to welcome Greg, Jeff and Mike to the Sound Seal team, who join us at a very exciting time following the recent acquisition of Industrial Noise Control."
