**\*This color chart is only a representation of veneers available. Slight color variations do occur between the color chart and actual product. Contact our Sales Department for a veneer sample.**

 **Sound Seal®** uses FSC certified products for our **WOODTRENDS®** wood ceiling & walls systems including the MDF core & selected wood veneer species. The Forest Stewardship Council has developed **FSC** rigorous procedures and standards to evaluate whether organizations (certification bodies) can provide an independent and competent forest evaluation (certification) service. This process is known as accreditation. FSC accredited certification bodies are required to evaluate all forests aiming for certification according to the FSC Principles and Criteria for Forest Stewardship.
