C-100 & C-100B
ACOUSTICAL CEILING TILES

Sound Quality® Ceiling tiles are offered as both a sound absorbing as well as a combination sound absorbing / sound blocking tile.

C-100 Ceiling Tiles have a 2 mil white pebble grain vinyl facing attached to a 1" or 2" thick rigid fiberglass board and have excellent sound absorption (NRC) ratings.

C-100B Ceiling Tiles take the standard C-100 tile and add a 1# per square foot foil backed vinyl noise to the backside of the tile for high sound absorption (NRC) and high sound blocking (STC) requirements.

FINISH
2 mil white pebble grain vinyl
