

SOUND CURTAINS
BY SOUND SEAL

SPEC DATA SHEET **BBC SERIES**

BBC-15

NOISE BARRIER/ SOUND ABSORBER COMPOSITE

The configuration of Sound Seal's **BBC-15** product offers the benefits of both a sound absorber and noise barrier. Each curtain is custom fabricated and consists of a non-porous scrim facing on a nominally 1" thick quilted fiberglass absorber/decoupler that is bonded to a reinforced 1-lb psf loaded vinyl barrier. (Note: barrier is 54" wide, quilt is typically 48" wide for a built-in overlap on adjacent pieces.) Can also be finished with grommets across the top, and vertical-mating Velcro along the edges for easy installation.

FEATURES:

- Excellent acoustical performance (STC 27/NRC .70)
- Class A fire rated per ASTM E-84
- Scrim facing
- Flame Spread: 12.5 | Smoke Density: 19.5
- Temperature Range: -20° to +200° F
- Weight: 1.30 lb psf
- Our most durable outdoor pipe & duct wrap

APPLICATIONS:

- Commonly used in manufacturing spaces
- Used to wrap noisy pipes and ducts to block the noise that transmits through the walls of the pipe or duct as air or other contents move through it
- Improves overall acoustical performance, especially at low frequencies
- The preferred product to wrap pipe and duct work in outside environments
