

## ***Impacta by Sound Seal Launches Cerazorb Low Density and High Density***

Agawam, MA – **March 5<sup>th</sup>, 2020**- Sound Seal, a leading manufacturer of noise control products serving the industrial, architectural, commercial and construction industries, announced today the introduction of Cerazorb Low Density (LD) and Cerazorb High Density (HD) acoustical underlayments.

**Cerazorb Low Density (LD)** is Designed Specifically for Installation beneath engineered hardwood and stiff-core LVT/LVP Applications.

### **CERAZORB® HD**

### **CERAZORB® LD**

**Cerazorb High Density (HD)** is designed for Tile and Stone applications. Both the **LD** and **HD** variations are made out of hemi-crystalline thermoplastic that will not rot, swell or absorb water and are antimicrobial.

“We are pleased to offer two specific variations of Cerazorb” said David Ingersoll, National Sales Manager for Sound Seal. “Unlike our competitors, our underlayments are uniquely designed and developed to be compatible with specific top floors and applications. This ensures that we are providing solutions that will result in optimal performance.”

### **About Sound Seal**

Since 1978, Sound Seal has been a leading manufacturer of acoustical noise control products, offering the widest product selection in the soundproofing industry with innovative solutions and outstanding customer service. Sound Seal consists of three product divisions: the Industrial Division that addresses in-plant and environmental noise control; the Architectural Division that handles interiors and finishes, including an award winning line of WoodTrends products; and the Impacta Flooring Division that offers floor underlayments.
