

Sound Seal Introduce S-4200 Tuned Absorber / Diffuser Panels to Sound Quality® Architectural Product Line

Agawam, MA – **November 2nd, 2021** - [Sound Seal](#), a leading manufacturer of noise control products serving the industrial, architectural, commercial and construction industries, has added a new sound panel to their impressive Architectural Sound Quality® line. The [S-4200 Tuned Absorber / Diffuser Panels](#) with their impressive blend of sound absorption and sound diffusion, are a prime choice for schools, auditoriums, studios and performance halls.

S-4200 Tuned Absorber / Diffuser Panels are comprised of a fiberglass core that can vary from 1" thick up to 4" thick along with a perforated 1/8" thick hardboard. The panels are finished in any one of Guilford of Maine's hundreds of decorative fabrics, or if preferred, an option from Design Tex, Maharam,

Knoll or a specialty fabric of the customers' choosing. All of the standard acoustical wall panel mounting methods can be used with these panels including impaling clips, Z Clips and Rotofast hardware.

Dave Ingersoll, Vice President of Sales for Sound Seal, elaborated on the customization sharing that, "The S-4200 product is the first panel in the Sound Quality line that can effectively scatter sound throughout a space as well as offer excellent sound absorption across a wide range of frequencies allowing one to tune a room."

S-4200 Tuned Absorber / Diffuser Panels are available in standard sizes in two-foot increments up to 4 ft. x 10 ft. with custom size offerings also available. Customers can choose from four thicknesses and various mounting and color choices. Learn more by visiting soundseal.com or attending a [webinar](#) on 11/4, 11/11 or 11/19.

About Sound Seal

Since 1978, Sound Seal has been a leading manufacturer of acoustical noise control products, offering the widest product selection in the soundproofing industry with innovative solutions and outstanding customer service. Sound Seal consists of three product divisions: the Industrial Division that addresses in-plant and environmental noise control; the Architectural Division that handles interiors and finishes, including an award-winning line of WoodTrends products; and the Impacta Flooring Division that offers floor underlayments.
