

## Sound Seal Launches a Portable Acoustic Enclosure as Part of Sound Curtains Line of Acoustic Solutions

Agawam, MA – **January 12, 2021** - Sound Seal, a leading manufacturer of noise control products serving the industrial, architectural, commercial and construction industries, is pleased to introduce the Portable Acoustic Enclosure.

Portable Acoustic Enclosures are completely mobile with built-in locking casters, optional vent baffles and windows and Velcro seals to join the panels together. It also combines high-performance sound curtain panels with a modular steel-tube frame. The slip-fit modular frame construction means easy, no-tool assembly in multiple configurations. The reinforced loaded vinyl noise barrier provides up to a 15dB reduction in mid-range frequencies.

“Portable enclosures were the next logical evolution for our Industrial product line,” said Dave Ingersoll, Vice President of Sales for Sound Seal. “With newer plant and shop equipment being made more compact and movable, we wanted to accommodate that with a customizable, modular and sturdy enclosure that can quickly be relocated as needed”.

Please join us for our featured webinar on our new portable acoustic enclosure. Aaron Duncan, Industrial Division Sales Manager for Sound Seal, will be hosting this informative webinar on four dates in January beginning January 14. Please visit the webinar page on [soundseal.com](http://soundseal.com) to register.

### About Sound Seal

Since 1978, Sound Seal has been a leading manufacturer of acoustical noise control products, offering the widest product selection in the soundproofing industry with innovative solutions and outstanding customer service. Sound Seal consists of three product divisions: the Industrial Division that addresses in-plant and environmental noise control; the Architectural Division that handles interiors and finishes, including an award-winning line of WoodTrends products; and the Impacta Flooring Division that offers floor underlayments.
