

## Introducing IMPACTA ProBase® Vinyl by Sound Seal

AGAWAM, Mass. – October 6, 2020 – Sound Seal, a leading manufacturer of noise control products serving the industrial, architectural, commercial and construction industries, announced today the introduction of IMPACTA ProBase® Vinyl.

IMPACTA ProBase® Vinyl is an underlayment solution specifically designed for use under both dry back and glue down LVP/LVT, sheet vinyl, carpet and carpet tile flooring. The thin, 3mm design offers optimal acoustic improvement to flooring while PUR-bonded rubber granules maintain durability, permanent elasticity and age resistance. PUR-bonded rubber and cork elements are Green Circle certified for recycled content.

“ProBase Vinyl offers the same acoustical benefits as straight pure rubber while remaining more cost-effective,” says Dave Ingersoll, National Sales Manager at Sound Seal. “It can also be used in the same applications as rubber.”

Want to learn more? Mike Keeney, IMPACTA Sales Manager with Sound Seal, will be hosting a webinar highlighting the features and versatility of IMPACTA ProBase® Vinyl. Sound Seal is hosting the product-focused webinar over four dates in early October. Register early to book a preferred timeslot.
