

Sound Seal Expands Pipe and Duct Wrap Product Line with New AlumaLAG™

New AlumaLAG™ delivers outdoor durable duct wrap with exceptional acoustical performance

Agawam, Ma ([PRWEB](#)) July 08, 2015 -- [Sound Seal](#), a leading manufacturer of acoustical and noise control products serving the industrial, architectural, commercial and construction industries, announced today the addition of the [AlumaLAG™](#) product to its well respected Acoustical Pipe and Duct Wrap product line.

AlumaLAG™ is an acoustic composite combining a mass loaded vinyl noise barrier bonded to a rugged aluminum jacket. Designed specifically to meet varied acoustic performance needs, AlumaLAG™ products offer versatile solutions for all pipe and duct noise control problems. They are available in smooth, corrugated and embossed jacket finishes over a 1.0 lb or 2.0 lb / sq loaded vinyl barrier, offering aesthetics, protection and durability for exterior and chemical resistant applications.

“We are very excited to expand our popular line of Acoustical Pipe and Duct Wrap products,” said Industrial Business Development Manager Dan O’Brien. “We now can provide an outdoor durable option, which rounds out our product offering nicely. By marrying our acoustic composite with aluminum, you can feel confident that this robust solution will stand the test of time.

Typically used in conjunction with a fiberglass or mineral wool decoupler, AlumaLAG™ is a simple and effective solution when both sound blocking capability and extreme durability are requirements for a pipe or duct noise control project.
