**SERENITY METAL CEILING TILES**

SERENITY METAL CEILING TILES are a high performing, affordable alternative to builders grade composite lay-in tiles. Our perforated metal lay-in replacement tiles provide a functional, low maintenance ceiling finish providing NRC values superior to many other materials. Used for either new construction, renovation or retrofitting, our Serenity tiles fit into standard 2’ x 2’ and 2’ x 4’ lay-in grid systems.

Not only will our ceiling tiles add excellent sound absorption to the space below, but with the addition of our STC-26 noise barrier backing option will also provide noise attenuation from the spaces above and adjacent to the treated area as well.

**STANDARD FEATURES AVAILABLE:**

- **Tile Thickness:** 1” and 2”
- **Mounting Styles:** Square lay in or Tegular edge available for both 15/16” and 9/16” standard grid
- **Acoustical Fill:** From 1.5 LB to 3.0 LB fiberglass
- **Fill Encapsulation:** Available in black heat sealed polywrap
- **Tile Face:** Flat
- **Sizes:** To fit standard 2’ x 2’ and 2’ x 4’ lay-in grids
- **Materials:** Galvanized, aluminum or stainless steel
- **Finish:** Baked polyester powder coat
- **Colors:** White and black standard, other RAL colors available
- **Fire Rating:** ASTM E84 Class A
- **Acoustical Performance:** NRC up to 1.0

### PRODUCT DETAILS

**Serenity Perforated Metal Tile with Square Edge**
- Standard Suspended Ceiling Grid 9/16” or 15/16”
- Available for 9/16” and 15/16” Standard Grid

**Serenity Perforated Metal Tile with Tegular Edge**
- Standard Suspended Ceiling Grid 9/16” or 15/16”
- Available for 9/16” and 15/16” Standard Grid

### MOUNTING OPTIONS

**FLAT LAY-IN MOUNTING**
- Standard Suspended Ceiling Grid 9/16” or 15/16”
- Serenity Perforated Metal Tile with Square Edge

**TEGULAR LAY-IN MOUNTING**
- Standard Suspended Ceiling Grid 9/16” or 15/16”
- Serenity Perforated Metal Tile with Tegular Edge
