1. Lay out the panel location on the wall.

2. Secure Impalement Clips to wall using appropriate fasteners. Clips should be located to ensure there is no contact between clips & fabric.

3. Apply a generous amount of liquid nails or construction adhesive to panel along the perimeter of the fabric.

4. Ensure panel is located properly. Press panel back of panel exposed. Adhesive applied to fibreglass exposed.

5. Being Impaled by the clips, not the fabric.

6. Primarily to wall. Make sure the fibreglass core is panel location.

7. Panel.
