1. Lay out the panel location(s) on the wall.

2. Determine EC-2/EC-4 bracket locations on wall. Brackets should line up with EC-1 clips on supplied panels.

3. Secure the EC-2/EC-4 brackets to the wall with screws.

4. Slide the EC-1 clips attached to the panel onto the EC-2/EC-4 brackets on the wall.

*For all ceilings, a small amount of adhesive should be applied to both parts of the brackets before being slid together.

Reference supplied panels & drawings to locate EC-1 clips.

Wall reference lines (dimensions noted on drawings)
