

B-20 CV Noise Barrier

B-20 CV is a transparent poly-vinyl chloride noise, wind and thermal barrier. It is designed to minimize the passage of sound, heat, cold, or wind from one area to another while offering maximum visibility. B-20 CV can be used outdoors because it is formulated with an ultraviolet stabilizer.

- Rolls are available 48" wide x 60' long
- -20° F to +150° F
- Offers significant noise reduction while allowing for visibility and easy access

Applications:

Sound Seal's B-20 CV is available in roll form, or in fabricated panels with grommets at the top and Velcro seals along each vertical edge. Standard panel width is 48", length as required. Custom sizes are available.

Product Data:

Description	nominal 2 LB-psf transparent PVC barrier
Standard width	48 inches
Temperature range	-20° F to +150° F
Weight	1.8 Lbs psf
Thickness	.275 inches
Flammability	Compliant with California Fire Marshal

Acoustical Performance:

Sound Transmission Loss (dB)

Product	OCTAVE BAND FREQUENCIES (Hz)						
	125	250	500	1000	2000	4000	STC
B-20 CV	16	22	26	32	35	40	31

ASTM E-90
