S-3000

REFLECTIVE WALL PANELS

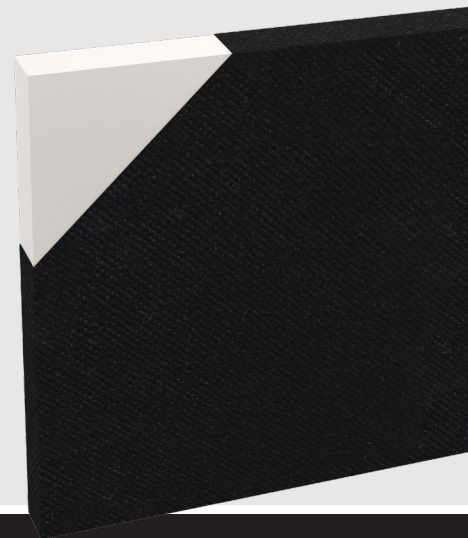

Sound Quality S-3000 Reflective Panels are used in applications where sound reflection is necessary to enhance the rooms' acoustics. S-3000 Reflective Wall Panels are frequently used in conjunction with our S-2000 absorber panels. By combining both the S-3000 and S-2000 panels you reflect and absorb excessive sound, resulting in the improvement of sound quality and speech understanding.

FEATURES:

- Standard, designer or C.O.M fabric
- Various mounting options
- Custom sizes and shapes
- Tough, high strength & lightweight

APPLICATIONS:

- Auditoriums
- Concert Halls
- Churches
- Band/Choir Rooms

S-3000 REFLECTIVE WALL PANELS

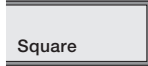

SIZING

Manufactured using an Expanded PVC Core in standard thicknesses of 12 mm and 19 mm with custom sizes up to 4' x 10.' These panels can also be manufactured with built up edges to match the approximate thickness available in our S-2000 panels.

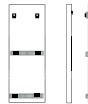

FINISHES

Guilford of Maine FR701-2100 is the industry standard. Hundreds of approved decorative fabrics are also available from numerous manufacturers including, but not limited to: Guilford of Maine, Maharam, Design Tex and Knoll. Customers may also specify their own fabric, provided the material meets manufacturing requirements.
